Botirjonov Ibrohim
Front-end Developer

Seeking a challenging role that allows me to utilize my expertise in HTML, CSS, JavaScript and React JS along with my passion for creating intuitive user interfaces. Committed to staying up-todate with the latest industry trends and technologies, I strive to deliver exceptional user experiences and contribute to the success of the development team.

Projects

SciSpace project (link)
Technologies: React, Tailwind, Sass

Description
A dynamic platform designed exclusively for scientists to exchange and evaluate ideas. It serves as a virtual forum where researchers from diverse fields come together to share their insights, refine concepts, and collaborate on cutting-edge projects. With its user-friendly interface and robust features, IdeaForge provides a streamlined avenue for idea exchange and evaluation, fostering innovation and driving progress in the scientific community.

Movieland project (link)
Technologies: React

Description
Movieland is a cool website where you can find any movie you want to watch. It's like a giant online movie library where you can search for all kinds of movies. Whether you're into action, comedy, or romance, Movieland has something for everyone.

Portfolio website (link)
Technologies: HTML, CSS, JavaScript

Hoobank project (link)
Technologies: React, Tailwind

Description
Hoobank is a friendly online banking system where you can manage your money easily. It's like having your own personal bank right at your fingertips. With Hoobank, you can check your balance, transfer money, and pay bills—all without having to leave your house. It's super convenient and easy to use, whether you're saving up for something special or just keeping track of your day-to-day expenses.
